

STUDIOUS

SYSTEM OVERVIEW

As department of every field is getting more data preserving and reducing the use paper work and reducing the use of paper works and digitalization come into picture .Managing a good tuition is as complex as managing any other education institute.

So, “STUDIOUS” ease the work of the employee and admin as well as the student .All the required information can be obtained at single place.

ADVANTAGES OF STUDIOUS:

- Only require a standard device which can be used to access the internet and good to go.
- Editing is not a problem.
- Processing is very short and not time consuming.
- It can be bounded by being at the specific location.

SYSTEM STUDY

Done system study by referring different kinds of online software related to Tuition management system like

- <http://www.simtrainsystem.com>
- <http://www.eskooly.com>

TYPES OF USRES

- Admin
- Tutor
- Student
- Parent

USER REQUIREMENTS

The admin have the provision to update the tutor's salary on the basis of the working hours of the corresponding month. That can be seen by tutor.

VIEW THE PROGRESS OF STUDENTS

Tutors can upload students marks scored in each exams and analyses their progress by calculating their total marks secured on each subjects and categories them on the basis of their grade. The categories are:

1. Excellent
2. Very good
3. Good
4. Average
5. Below average

EXISTING SYSTEM

When a student want admission for tuition they directly go to the center and take admission, then the admin will enter the details of the students on website.

DRAWBACKS OF THE EXISTING SYSTEM

- Users (tutors, students & parent) can't see the marks and progress.
- It is hard to give study materials and question paper directly to all students in each class.
- Sometimes admin can't analyze the progress of each student.
- It is hard to maintain the whole details about students and tutors.

PROPOSED SYSTEM

The admin can view the details of students, tutors and teachers. Tutors can provide study material and question papers than can be downloaded by students. Students can register on this system so that admin can approve it if they are eligible for admission. Student's marks and progress of the whole year can be analyzed, not only admin and tutor, parents can also see their progress. Tutor can view their salary and parents and students can view their fees that are provided by admin. sAdmin also upload time table which can be viewed by tutor , student and parents.
